

2021 Lucille Landals Emerging Leader Award

Sydney was born and raised in Edmonton and has had a passion for animals since a young age. Sydney found her passion for veterinary medicine when she took a year off from post secondary school to work as an assistant at a vet clinic in Saskatchewan. After this experience, she chose to become an RVT as she wanted to give a voice to those who do not have one. She joined the ABVTA board of directors as a student representative for Lakeland College in 2019. During that time, she complimented our board of directors by putting forth her ideas, bringing forth concerns from her class and contributing to discussions. We have been fortunate to have her as a part of our board, and she continues to be involved in our association through being on our continuing education committee. Her efforts and dedication to the ABVTA so early on in her career has been exemplary. I am proud to present the 2021 Lucille Landals Emerging Leader Award to Ms. Sydney Frost.
